THIS WEEK IN THE LEGISLATURE

(Continued from page 1.)

roduced in the senate providing that the governor appoint a commission, each salaried \$ thousand dollars a year, removable at the pleasure of the governor, of which commission the governor is ex-officio chairman. The commission is to be abolished automatically fifteen days after the capitol is completed.

Many new bills were introduced in the House and in the Senate other than those mentioned. On bill by Durant proposed the licensing of the Hotels, Drug Store, Meat Markets, Grocery Stores and Restaurants and providing for their inspection.

Disregarding the unfavorable committee report, the House Tuesday voted to place the Glasco usury bill on the calendar. The bill makes usury a felony. It is said that its adoption would force some two hundred small banks out of business. The House also passed the general revenue bill, which places a two per cent tax on gross production of oil and gas and one per cent tax on production of zinc. Half of the revenue thus raised goes to the county, half to the state.

The Senate on Wednesday passed the Home Ownership bill with amendments added by the House. The bill, if signed by the governor, will make about seven million dollars available to loan to land owning farmers at low rates of interest, payable semi-annually.

The Senate finally passed the supreme court commission bill, in accordance with the ideas of Governor Williams.

The senate committee has favorably reported a bill which will take the immense school land fund out of the hands of the school land department and place it in the hands of the state treasury along with the other state money.

Senator McIntosh, of Durant, introduced eight joint resolutions that are directed at the platform pledges of the Democratic party and which echo the campaign of Governor Williams. They propose constitutional amendments, as follows:

That the governor shall appoint an officer to be known as the chief inspector of mines, oil, and gas.

That the supreme court shall appoint the clerk of that court and his salary shall be \$2,500 a year.

That the governor shall not be eligible to party nomination for senator of the United States during his term of office or for one year thereafter.

That no person who is holding office in an executive or judicial department of the state shall be eligi-

ble to become a candidate for any state, county, or municipal office, except to succeed himself.

That no federal office holder or member of congress, while holding such office, shall be eligible to become a party candidate for any state, county, or municipal office.

That no member of the legislature shall be eligible to become a party candidate for a seat in congress for two years after the passage of the congressional redistricting act of the legislature, of which he was a member.

That the Commissioner of Charities and Corrections, whose term of office shall begin and terminate with that of the governor, shall be selected in such a manner as may be provided by law; said officer may be of either sex and must be twenty-five years of age.

A bill introduced by Senator Barrett increases the employees of the State Treasurers' office by three, one with a salary of \$1,500 and two with a salary of \$1,200.

Bill for National Land Bank was introduced.

Washington, D. C., Feb. 17.—Representative Dick T. Morgan of Oklahoma, proposes a new plan to provide land credit on his bill, introduced today, creating a National Land Bank, as the instrument to negotiate mortgages and to issue and sell debentures or land bonds secured there by.

The National Land Bank is a non-profit making institution. It is authorized to receive deposits to the amount of 10 million dollars and pay 3 per cent interest thereon, reimbursable by the bank. Secretary of the Treasury is authorized to deposit in the fund any balance the public fails to deposit. This fund is transferred to the National Land Bank, which proceeds to loan funds on farm mortgages and sell the bonds issued thereon, and continue to reloan said fund as rapidly as land bonds can be sold. Bonds bear three and three and a half per cent interest, according to the class of the loan, the mortgages pay 3½ and 4 per cent interest according to the class of the loan.

New Presbyterian Church is Nearing Completion.

The new Presbyterian church at the corner of Third avenue and Cedar street is fast nearing completion and will soon be ready for occupancy. The finishing touches to the inside work are being done now, and the orders have been placed for the fixtures which will be ready for installation within a few more weeks. This edifice is one of the finest churches in the state, costing upwards of 25 thousand dollars, and is a monument to the progressiveness of the members of the congregation, as well as to the city.

Cotton Market is Quiet and Improved. The following were Tuesday's cotton quotations at the various centers:

Spot markets, middling, closing: Dallas, steady and revised at 8c; Galveston steady and unchanged at 8.45c; Houston, quiet and unchanged at 8.45c; New Orleans, holiday; New York, quiet and unchanged at 8.55c; Savannah, steady and unchanged at 8.45c; Charleston quiet and unchanged at 8c; Norfolk steady 12 points higher at 8 cents; Mobile holiday; Memphis, quiet and unchanged at 7.85c; Liverpool firm, 9 points higher at 5.91.

Future markets, closing prices: Liverpool steady four to four and a half points higher; New York steady 3 to 5 points higher on all positions except March, 8 points higher.

Action of Wheat, Corn, Oats.

Chicago, Ill., Feb. 17.—Prospect of a liberal export business gave the wheat market a lift today but the hope of continued free sales to Europe was not realized quickly enough in full, and some of the advance disappeared. There was an unsettled close at 2½c to 3½c above last night. Corn finished ¼ to 3-5c higher and provisions up 5c to 22½c.

It was not until after the dealers in wheat had left the pit that the fact became known definitely of 1 million bushels having been disposed of at the seaboard today for trans-continental shipment.

Corn showed more pronounced weakness than has recently been the case. The great stocks on hand resulted in much selling pressure and there were predictions of a new movement from the country. Oats dragged lower with wheat.

British Aeroplanes Made Attack on Germans Tuesday.

Tuesday of this week forty aeroplanes from the British army raided upon the German forces along the Belgian coast line and dropped hundreds of bombs near Ostend, Zeebrugge and Blankenburghe and in Middlekerke. The bombs were dropped on German Supply trains, and guns with damaging effect and at the same time a flock of French aeroplanes bombarded the place where German aeroplanes were kept thus preventing them from making an air attack upon the invaders; the same time also, British trawlers were laying mines in the water near the German base of supplies.

Banks will Have Another Holiday on Next Monday.

The banks will have another of their numerous holidays next Monday, when none of the banks of the city will open for business owing to a legal holiday Washington's birthday. Business will be resumed on Tuesday.

Flour! Flour! Flour

Yes it is true that flour is up 50 to 75 cents per 100 lbs. but we have 150,000 pounds bought that we will save you 25 to 50 cents on the 100. Come quick and see us. Other groceries cheaper than the cheapest.

The Use of Money

The Way a Man uses Money—makes it—saves it—spends it perhaps one of the best tests of his character.

Money should not be regarded as the principal end of life nor should it be regarded with contempt, for it represents to a great extent, the means of mental and physical comfort.

The finest qualities of human nature are related to the right use of money—generosity, honesty, justice, self-sacrifice.

A little self-sacrifice, a savings account with this bank, and a determination to use your money right (by saving it) will soon accumulate a snug balance to your credit.
